MILK TABLE LAMP NA1

BY NORM.ARCHITECTS

2009

Norm.Architects finds exciting new ways in an ancient Nordic tradition of wood and glass. Though perfectly suited as a lamp, Milk adds more than light to your home.

With Milk it was Norm.Architect's intention to create a soft light that could be placed in all corners of the home to create a cosy atmosphere. Being featured in an array of interior magazines, design blogs and on social media over the last few years they have surely succeeded.

&tradition is a Danish design company established in 2010 with the founding principle being tradition tied to innovation. Our unique library of furniture and lighting spans from the 1930s to the present day and includes designs by internationally renowned designers.
