# Meet the Harbour Collection

Clean lines, tactile materials, supreme comfort: the Harbour Chair was conceived with all of these in mind. And the result is an infinitely versatile and accommodating chair for modern spaces.

Originally designed by Norm Architects for MENU's creative destination in Copenhagen's Nordhavn district, the Harbour Chair melds exceptional comfort with a strong silhouette.

Striking the perfect balance between geometric and organic shapes, the contoured seat curves outwards at the back and sides for maximum support, enveloping the body in its slender shell.

Furthermore, the low, ergonomic armrests ensure the chair slides neatly under standard dining tables.

## About Norm Architects

Founded in Copenhagen in 2008 by Jonas Bjerre-Poulsen and Kasper Rønn, Norm Architects specialises in residential architecture, commercial interiors, industrial design, photography and art direction. Today, the group regularly collaborate with MENU, helping to drive the evolution of the brand and its products.

Norm Architects' name reflects the company's emphasis on the importance of drawing inspiration from norms and

traditions within architecture and design – in particular the Scandinavian design principles of timeless aesthetics and natural materials and the modernist values of restraint and refinement.

Guided by these principles, Norm Architects produces design that unites great materials and craftsmanship, while embodying beauty, traditions, history and, most importantly, timeless simplicity, where there is nothing more to add or take away.

## About MENU

**AT MENU, WE BELIEVE IN CONNECTED SPACES: SPACES THAT UNITE OUR WORLD THROUGH DESIGN AND MAKE OUR TRANSITIONS FROM ONE PLACE TO ANOTHER SEAMLESS, INTERESTING AND ENJOYABLE.**

In our rapidly changing landscape, the distinctions between home and work have become blurred.

The concept of *Connected Spaces* reflects this exciting shift, highlighting the opportunity to create human-centric, multi-functional environments that serve our needs: workplaces that make us feel at home; homes with all the comfort and refinement of boutique hotels; cafés, shops, restaurants and hotels that feel curated to our desires and aspirations.

*Connected Spaces* is a testimony to the future of design. Since 1978, we have harnessed the skills of top designers and

craftspeople around the world to create furniture, lighting and accessories that are clean, clever and natural, infusing a sense of calm through high-quality materials in minimalist silhouettes.

By connecting the dots between home, work and hospitality, we can redefine how we use space and, ultimately, how we connect to one another. Designing ideal spaces is a journey. There is no roadmap.

Today, MENU's designs can be found across the globe. To make sure our product portfolio continues to anticipate people's needs and offer a breadth of ideas and solutions, we partner with contemporary talents both in our native Scandinavia and around the world.

At the same time, our collection is also growing to include more legacy designers whose work has stood the test of time and serves as a reminder what it means to be a modern classic.

## MENU at The Audo

MENU's new showroom is located at The Audo, a unique concept that masterfully unites co-working and event facilities, a café, restaurant and retail area, as well as an exclusive residence in a single, community-building universe

The Audo features an inspiring mix of original features and thoughtful new accompaniments from an eclectic mix of premium brands—not least MENU's comprehensive range of furniture, lighting and accessories, which are put to their truest test, together with a curated selection of products from global brands. Abbreviated from the Latin *Ab Uno Disce Omnes*, meaning: From one, learn all, The Audo reflects MENU's founding philosophy of collaborative spirit.

Redefining how we use design, space and, ultimately, how we connect to one another, the creative destination is a hub for powerful ideas, beautiful design and inspiration.

## The Harbour Collection

The Harbour Chair is offered in a range of materials and finishes, allowing for total customisation. The shell seat comes in a selection of colours, with or without upholstery, and the base comes in three solid oak versions and two powder-coated steel variants. The swivel version offers unparalleled freedom of movement and, if you so choose, casters for easy rolling. Sleek bar and counter height base options let you pull the chair up to your preferred surface, whatever its height.

Furthermore, the Harbour Side Chair can be paired with any of the existing bases from the collection. With its slender, compact shell, the design fits into more spaces and under more tables, providing additional personalisation in both retail and contract settings. The shell seat substitutes the need for armrests as its gentle curves retain the sense of being cradled and supported, while inviting complete freedom

of movement. Beautiful alone or paired with the Harbour Chair, the Harbour Side Chair maintains the collection's elegant, minimalist feel.

The Harbour Lounge Chair is a sculptural piece with a minimalist expression; the solid yet lightweight construction retains all the hallmarks of its predecessors, while adding laid-back comfort to the collection.

Our Harbour chairs are set on a powder-coated steel or solid wood base, with the option of fabric or leather upholstery or a simple shell upper. The bare shell is offered in six different colours, while textile and leather versions come in a range of customisable colour options.

The base is available in seven variants for dining, as well as two for counter or bar and a low pitch on the lounge version, allowing you to mix and match colour, base and texture to fit your specific needs for the home, workplace or any other space you occupy.

## Harbour Dining Chair

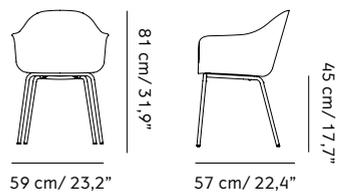

The Harbour Dining Chair – an armchair with a continuous, enveloping shell – is available with textile and leather upholstery or with a bare shell with a steel or oak base.

# Harbour Lounge Chair

The Harbour Lounge Chair has the minimalist expression as its predecessors. Resting on a solid wood frame, offered in natural, dark stained or black oak and walnut, its embracing shell is available upholstered in a range of tactile yet durable fabrics in contemporary colourways.

The low-pitched frame features rounded legs and subtle joinery details, and the generous shell has a wide back, angled for comfort and supporting the body while providing space to relax. Ideal for relaxing into after a long day, it features the collection's characteristic curving armrests and a luxuriously oversized seat complete with a corresponding cushion.

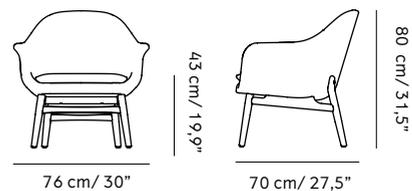

Bridging the gap between an armchair and a lounger, it is set on a low-pitch solid wood frame with rounded legs and joinery details, offered in natural, stained or black oak and walnut.
