

## Table Frame - White

### Lacquered and coated steel

- Wipe the surface with a cloth. Damp wipe with detergent solution. Then rub dry with a cloth.
- Remove stains with detergents that do not contain abrasives.
- Never use steel wool.

### Linoleum

- Wipe the surface with a cloth.
- Use water to clean spills. because linoleum is made from natural elements, it is sensitive to harsh, chemical-based cleaning products. Commercial cleaning products that contain chemicals such as ammonia can permanently discolour your linoleum.
- if the spill cannot be cleaned with water alone, add mild liquid dishwashing detergent to the water. use a pH-neutral detergent (pH 7-8).

### In general

1. Always wipe the surface with a clean cloth.
2. Use underlay for hot items.
3. Check occasionally that mounting bracket and screws are tightened.
