

# ORGANIC TEDDY COTTON

Our teddy is made from 100% organic cotton, with a GOTS certificate. It has a soft and breathable surface and gives a high level of comfort when sitting on the furniture. Read more about the material [here](#)

All wool products have a removable cover, which makes cleaning easy. It also makes it possible to replace only the cover if you want to switch to another color or materials.

The inner bag in the teddy products has an opening, which makes it possible to adjust the filling to fit your specific comfort need.

## CLEANING AND MAINTENANCE

- Machine washable at 30 degrees
- Tumble dry or air dry
- Over time, the EPS filling of the leather beanbags may flatten and extra filling can be necessary. Shop EPS beads [here](#)

## PRACTICAL INFO

Name: ECO TEDDY/PLUSH

Composition: 100% organic cotton

Production: Knitted

Certification no: CU 822045 (GOTS)
